Introduction

Introduction to the GREEN India 2047 Project

Development and lifestyles

Fifty years of development

Lifestyles and environmental quality: 1947 – 1997

Natural resources then and now

Water resources

Soil resources

Forest resources

Biodiversity

Pollution: the degradation of natural resources

Air pollution

Water pollution

Solid wastes

The costs of degradation

The hidden costs of degradation

Prospect: 1997 to 2047

DISHA(Directions, Innovations and Strategies for Harnessing Action): GREEN India 2047
