

TIDEE (T ERI Information Digest on Energy and Environment)

Volume 3, Number 4 • December 2004

Sectoral focus: environment

Draft National Environment Policy

Media review

Media on energy and environmental issues

Technoscan

Abstracts of current research

Coal and coal products

Petroleum

Natural gas

Hydrogen

Other synthetic and natural fuels

Biomass

Hydroenergy

Solar energy

Geothermal energy

Tidal and wave energy

Wind energy

Electric power engineering

Energy planning and policy

Direct energy conversion

Energy conservation, consumption, and utilization

Transport and energy

Transport and environment

Fossil fuels and environment

Renewable energy and environment

Industrial pollution

Power sector and environment

Hazardous waste and its management

Health effects

Control technologies

Environmental planning, management, and policy issues

Sustainable development

Climate change: issues and policies

Climate change: impacts, adaptation, and vulnerability

GHG emissions and mitigation

Biodiversity and natural resources
